The practice of architecture is constantly changing, and we need your help to ensure that regulation changes with it.

NCARB's 2020 Analysis of Practice of Architecture will determine how the regulation of architecture evolves. Over the next year, we'll be reaching out to you to better understand your working life, how you collaborate with others, and what's on the horizon for our profession.

### Get Involved

Being a part of the Analysis of Practice is easy—sign up at [analysisofpractice.com](https://analysisofpractice.com) to learn more about how you can make a difference.

### Why Volunteer

Because every project, firm, and career is unique, we need individuals at every stage of practice to help influence the experience program, the licensing examination, and more.
